THE PANAMA CANAL.

The virtual completion of the new 1,000-foot drydock at Balboa, in conjunction with the shops and foundries, there, and of the 485,000-ton coaling plant at Cristobal, is an important step toward militarizing the canal and making it an important naval base, writes an Associated Press correspondent at Panama.

The drydock and the coaling plant are now in operation, although further work is necessary to bring them to completion. They have both been used recently for commercial ships passing through the canal. The Navy cruiser Charleston, which has been stationed at the Atlantic entrance since the last German crisis, is now being overhauled and repaired in the dock.

The drydock is 1,000 feet long by 100 feet wide, having the same dimensions as the chambers of the locks. It will accommodate the largest ships in the world, and even at this stage of completion has handled one vessel drawing thirty-three feet of water. It has a depth over the blocks of thirty-five feet at mean tide, or forty-five feet at high tide. It is an integral part of the terminal shops and foundries. Together they can do practically any sort of ship repair work. The new coaling plant at Cristobal, which has an emergency storage capacity of nearly 500,000 tons, which may be increased indefinitely in connection with land storage alongside the plant, has been designed with especial regard to naval uses. Its ability to deliver 2,000 tons of coal an hour to a ship will make it theoretically possible for a whole fleet to coal there in twenty-four hours for an extensive cruise. The plant is of a novel design, made with a view to just such an emergency.

Reviewing the new American naval programme, Captain Perkins, the German naval writer, expresses the opinion that it can hardly satisfy Americans who believe that the uncertainty of the Panama Canal necessitates the maintenance of two fleets one for the Pacific and a second for the Atlantic Ocean.

"Captain Perkins," says a Berlin dispatch to the "New York Times," "recognizes the enormous responsibility of naval security in forming a new programme while various types of naval arms are still on trial, and only very meagre details as to their performances, especially at the Skagerrak battle, can reassure him, but on the whole he thinks the money granted for them wisely apportioned. He thinks the American naval authorities deserve no little credit for having provided for a comparatively large number of submarines, despite British attempts to minimize this weapon's importance. He also approves of the American Admiralty's determination to approve the widely held view that dreadnought cruisers failed to make good at the Skagerrak. 'In Germany,' he says, 'the American fleet's development will always be followed with great interest' but not because it is expected that our respective fleets in more or less distant time would be compelled to measure their strength, knowing too well that America's port is west of her shores, in Japan. At the same time we live under no illusions as to America's close relations with Great Britain."

Philip Heineken, director of the North German Lloyd Steamship line, prophesies that the building of a second Isthmian Canal by the United States would not be an improbable development of the none too distant future. He fears that the Panama Canal may prove too unreliable a route to permit the United States to base thereon its entire international and naval policy. In this case, he said, it would be the part of wise statesmanship to choose promptly between the alternatives of building and maintaining a second fleet or of constructing a perfectly and permanently reliable canal. Like all German shipping experts, here Heineken looks forward to an immense call for tonnage with the ending of the war. The German German

vessels would be immediately available and the new construction going on during the war will balance the tonnage captured or destroyed.

More freight passed through the Panama Canal in July than in any month for a year, according to an official bulletin. Seventy-six vessels passed from the Atlantic to the Pacific; seventy-three in the reverse direction. They paid tolls of \$460,123. Of number of ships using the canal in July twenty-seven were American, seventy-five British and eleven Japanese.—"Army and Navy Journal."

SCHLESWIG-DETERMINED THAT ENGLAND SHALL FALL.

The Press of Schleswig-Holstein has recently published a flaming appeal to the people of that province, signed by the great landowners and magnates, the members of the Prussian House of Lords and Chamber of Deputies, and other notables. The following is the concluding passage:—

"The hour is one of bitter seriousness. It is true that we look gratefully and proudly on the successes won for us by our defenders in two years of unparalleled warfare. But all our successes cannot bring us the German Peace if we do not get permeated with the conviction that Germany's honour and greatness depend on the speedy defeat of England."

"If there is one thing more than anything which the war has taught us with growing clearness it is this: England is our most bitter and most dangerous enemy. England threatens our existence and our future. Against such an enemy forbearance and argument would be treason to one's own people. Therefore let us to the ground with all the means at our disposal. To think of peace until this has been accomplished would be both idiotic and unprincipled."

"The obvious comment on this is that it is more idiotic still to think that at this stage of the war it is possible for Germany to 'bring England to the ground.'"

LONDON-RECTOR'S AFFAIRS.

At a meeting recently of the creditors of the Rev. James Stephen Barras, Rector of the united parishes of St. Lawrence Jewry, St. Mary Magdalene, Milk Street and St. Michael's Bassishaw, all in the City of London, a composition of 7s. 6d. in the pound was accepted, payable on approval by the Court.

The Senior Official Receiver reported in favour of the proposal. A statement of affairs shows liabilities £2,138, and assets £100.

There was a Shanghai success at Newmarket the other day, when Mr. H. Morris' colours were first past the post in a seven furlong race. The winner was by Bayardo out of Chevalier Cat and the starting price 2-1 against it. It was the horse's second appearance only, being unplaced the first time but. By the way the Morris' stable ponies are conspicuous by their absence from the training gallops returns. It is understood that they are in hand down at Kiangwan—Shanghai Mercury.

## EXCITEMENT IN THE REICHSTAG.

## STARTLING DISCLOSURES.

AMSTERDAM, Oct. 30. Much excitement was caused in the Reichstag by an Alsatian Deputy declaring that over a thousand Alsacians had been "preventively arrested" without knowing why. An ex-barrister, who said she was an agent of the Pan-German Union, claimed to have denounced 128.

Speakers belonging to the Centre, Socialist, Progressive and Polish Parties expressed indignation at these ruthless methods.

Dr. Helfferich attempted to appease them and promised a thorough investigation. He accepted a National-Liberal motion to refer the Bill regarding preventive arrest to a Committee.

## LATER.

There were startling disclosures in the Reichstag debate on the subject of preventive arrest. It was stated that 424 persons were at present incarcerated. Of these 189 are merely suspected of espionage. There are 1,053 cases of persons whose residence is restricted. The Military exercise arbitrary powers subjecting the persons arrested to various forms of mental torture and hardships.

The arrested persons include Rosa Luxemburg whose influence is feared, also girls of 17, and high diplomats who represented Germany abroad.

Socialist members alleged that preventive arrests constitute the weapon which is being employed against political objectors.

Dr. Helfferich defended the system.

A message from Berlin states that the disclosures in the Reichstag have aroused the indignation of practically the whole of the members of the Reichstag. The Socialist Press is particularly bitter. It says that Dr. Helfferich was obviously nervous when he attempted to meet the charges.

The Liberal *Vossische Zeitung* declares that Dr. Helfferich's reception showed him that his attitude is but little approved.

## RUMANIANS PURSUING THE ENEMY.

## MORE PRISONERS TAKEN.

LONDON, Oct. 30. A Rumanian communiqué states:—In Jiu Valley our pursuit of the enemy continues. We have taken 312 more prisoners, and four machine-guns. We repulsed two enemy attacks north of Auzer, near the Prudal Pass, six miles within Rumania, and we advanced a little on our left wing in the region of Drago Slavele.

There is no change elsewhere.

## BITTER FIGHTING IN MACEDONIA.

LONDON, Oct. 30. A French official report from Salonika states that the Serbians, supported by French artillery, gained some advantage north of Delivul in bitter fighting, which continues with obstinate violence on both sides.

There is violent artillery activity in the region of the Corna and on our left wing.

## BIG BATTLE IN ABYSSINIA.

LONDON, Oct. 30. A telegram from the British Minister in Abyssinia announces that a big battle has been fought 25 miles from Adis Abeba (the capital), resulting in complete victory for the Government. Rasgibail, the father of the ex-emperor Lij Jesu, has been taken prisoner. Lij Jesu himself is believed to be among the tribes on the Somali-Abyssinia frontier.

## CHAMBERLAIN'S PAIN BALM.

(THERE is nothing so good for rheumatism, neuralgia, sciatica, sprains, strains, and all other pains in the muscles, joints, and bones as Chamberlain's Pain Balm. It will cure all these troubles, and it is the only remedy for which there is no danger of injury to the system.)

## THE WESTERN FRONT.

## SUCCESSFUL BRITISH RAIDS ON ENEMY TRENCHES.

## LONDON, Oct. 30.

General Sir Douglas Haig reports: During the night two successful raids on enemy trenches were made West of Wytschaete and East of Boesinghe. We took prisoners and inflicted considerable damage.

We bombed enemy working parties in the neighbourhood of La Bassée Canal, inflicting many casualties. Heavy rain continues.

There is nothing to report on our front south of Amers.

## SUCCESSIVE ENEMY ATTACKS ON THE FRENCH.

## PARTIAL ENEMY SUCCESS AT BACHES.

## PARIS, Oct. 30.

A communiqué states: We carried trenches north-west of Sailly-Saillies and advanced eastward, in the direction of Sailly, taking 60 prisoners.

The Germans attacked Baches to the south of La Maisonnette and were repulsed with severe losses several times, but finally a most violent attack penetrated elements of our first line north of La Maisonnette and gained a footing in Fero buildings.

All German efforts to drive us from Hill 97 failed.

The artillery struggle along the whole front on the right of the Meuse continues, but it is less violent at Douaumont. There has been no infantry attack.

## ENEMY BOMBARDING RHEIMS.

The communiqué concludes: "In accordance with their usual habit, in order to avenge their defeat at Verdun the Germans have violently bombarded the town of Rheims. There are a few civilian victims."

## LINER FOUNDERS IN A GALE.

## PASSENGERS AND CREW SAVED.

LONDON, Oct. 30. The Elder Dempster liner *Bornu* has foundered twenty-five miles west of Ushant in a heavy gale. All on board were saved.

## LATER.

The Norwegian steamer *Rain* picked up the passengers and crew of the *Bornu* and brought them to St. Nazaire.

(The *Bornu* is a ship of 2,074 tons belonging to the British and African Steam Navigation Co., Ltd., of which Elder Dempster & Co. are General Managers. The *Bornu* was built in 1899.)

## OTHER STEAMERS SUNK.

## LONDON, Oct. 30.

The British steamer *Marina* is believed to have sunk. The Spanish steamer *Zumaya* has been lost off Salvo. Only one person was saved.

## COPENHAGEN, Oct. 30.

The Norwegian steamer *Stenhest* has been sunk. The crew were saved.

## STOCKHOLM, Oct. 30.

A German submarine sank the schooner *Ellen*. The crew were saved.

## SINKING NORWEGIAN SHIPS.

## GERMANY'S MOTIVE.

## PARIS, Oct. 30.

It is believed that the sinking of Norwegian ships by the Germans is intended to intimidate Sweden from making a Commercial Agreement with the Allies, which the Allies are hopeful of arranging. Germany fears that the result might ultimately be to close her last open door to the world and enable Russia to obtain supplies when Archangel is ice-bound. By "rightfulness" towards Norway Germany hopes to inspire Sweden with fear of the consequences of any tendency to favour the Allies. However, the opinion is expressed that the contrary will be the result for the recent sea outrages are raising the Scandinavian States towards the Allies.

## OSLO, Oct. 30.

Before deciding to reply to the German Note regarding Norway's submarine policy, the Government will confer with the President of the Storting and the leaders of the Conservative and Socialist Parties.

## THE SINKING OF A GREEK SHIP.

## A GREEK PROTEST TO GERMANY.

## ATHENS, Oct. 30.

The Government has decided to protest to Germany against the torpedoing of the Angeliki.

## THREATENED GENERAL STRIKE.

The Trade Union centre of Piræus has decided in principle to proclaim a general strike if it can be proved that a German submarine has torpedoed Greek shipping. The Trade Union decided to strike unless they are guaranteed that Greek merchantmen will not be torpedoed.

## COMFORTS FOR TROOPS IN MESOPOTAMIA.

## AN APPEAL FOR PUBLIC SUPPORT.

## LONDON, Oct. 30.

The Committee of the Mesopotamia Comforts Fund, of which Lord Lamington is Chairman, appeals for public support.

At a meeting of the Committee on Saturday a gentleman just returned from Mesopotamia stated that the transport had been greatly improved and the troops were now receiving the comforts sent.

The *Times* publishes letters showing that the comforts sent to the Kut prisoners in Turkey sometimes do not reach them or are long delayed.

The Treasurer of the Regimental Comforts Fund complains that War Office methods have nullified the efforts of the Fund to provide prisoners with clothing.

## EARLIER TELEGRAMS.

## IRELAND AND HOME RULE.

## AN APPEAL BY MR. REDMOND.

## LONDON, Oct. 30.

Mr. Redmond, speaking at Sligo, appealed to the Government to put Home Rule into operation and to trust the Irish people. One great act of British statesmanship would do more towards winning the war than an alliance with half a dozen neutrals. All Irish rights he said "can be won by constitutional action," therefore the first need was to rally the constitutional movement. He warned Irishmen that there was nothing Imperial in Ireland's position, but sheer madness to Ireland herself.

## THE PRINCE OF WALES.

## LONDON, Oct. 29.

The Prince of Wales has been granted a General Staff Officer, second grade.

## WHOLESALE EXECUTION OF POLES AND RUTHENIANS.

## ROME, Oct. 30.

Austrian deserters and prisoners describe the atrocious treatment inflicted upon the Poles and Ruthenians suspected of sympathies with Russia. They declare that 20,000 were summarily executed.

## GERMAN PRISON CAMPS.

## MEN DYING OF UTTER MISERY.

## PARIS, Oct. 30.

The Danish writer Madame Branson makes painful revelations concerning the prison camp at Guestrup, where English and Russian convicts are slowly dying of less of illness than of utter misery.

## THE SINKING OF A TRANSPORT.

## FIFTY DROWNED.

## ATHENS, Oct. 30.

Fifty were drowned in the sinking of the Angeliki which was conveying volunteers to Salonika.

## THE TREACHERY OF AUSTRO-GERMAN SOCIALISTS.

## ITALIAN SOCIALISTS MINISTER'S DENUNCIATION.

## ROME, Oct. 30.

The Socialist Minister, Signor Di Giolitti, in a speech denounced the treachery of the Austro-German Socialists in deceiving the Allied Socialists regarding the war.

Victory he said would be incomplete unless Europe was freed from the nightmare of Austro-German militarism. Italy would fight until the many-headed monster Austria was wiped off the map of Europe.
